

**UVC MOBILE**

**Specification**

Number of UVC lamp	Brand Philips TUV 36HO 4PSE X 2 Lamp
UV Germicidal wavelength	254 nm Non Ozone
UV Driver	Special customize
Lamp protection	ADTEX-S Shtterproof lamp coating
Total lamp Watts	150 W
Rated voltage	220/240 50-60 Hz
UVC Intensity (uW/sec@1M)	400µW/s
Material Housing	Stainless steel 304
Duration Time	10-30 Min
Dose UV Display	NO
Lamp monitor	YES
Alert to replacement uv lamp	YES
Alert when uv dose low intensity	YES
Warranty	2 Year

**How it work**

The UV-C Mobile is UVGI Surface disinfection mobile device designed to be safe and effective. It's convenient way to sanitize room with remote control to operation. Simply more with lightweight device into the center of the room and then setting timer to close system. The UV-C Mobile exposed the light to reduce germicidal on surface and also be sanitizing and reduce air contaminate in the room.

**Key features**

- Kills 99% of bacteria and viruses (C.difficile, norovirus, MRSA, E.coli, salmonella and mold).
- Includes timer that can be set for 10, 30 minutes
- Automatically switches off when the desired time has expired. The room can be used directly after treatment.
